What I Know of Potato Culture.

I want a crop of potatoes with a less outlay for labor than is necessary for a crop of corn. Thoroughly plow the ground as early in the Spring as it is fit; strike out the furrows at two feet apart, and four to six inches deep; spread in the furrows 12 horse-loads of manure per acre; dig the potatoes at one foot apart in the drills, stamping each one in to the manure, and cover them with a double-width shovel plow, which will leave a ridge over the potato sets. As soon as the plants are up to the first joint, harrow them over with a light harrow. This will kill all the weeds and in no wise injure the potatoes. As soon as weeds start to grow, run through them with a half-mold board-plow, throwing the soil from the plants, and follow with hoes in the line of the row, cutting up the soil left undisturbed by the plow. I keep the plow going about once a week until the blossom buds begin to appear, when I till them up with the shovel-plow, going once to a row, following with hoes to destroy any weeds.

To harvest the potatoes, I run the half-mold board-plow under the rows, pushing two rows toward each other, and pick up all the potatoes that appear. I then go twice in the line of the row with the shovel-plow with the wings flat and set straight back, following each time and picking up. Although by this method the labor of gathering is greater than when dug by forks, yet the whole labor of digging and picking up I have found by actual trial to be only half of that by the old way. Besides, none of the tubers are cut.

I have discarded all other varieties for the Early Rose because this is the earliest, has the best quality, and is free from disease of any kind. This kind sells always for the highest market price, so that although it may not yield as many bushels per acre as some other kinds, it will yield more bushels. Last season I raised a few Potatoes on a sandy loam. When I harvested them they were beginning to rot, and in four weeks' time I had not a sound potato left, whereas the Early Rose, grown in the next row, up to the present writing, has shown no sign of rot. Furthermore, after the Early Rose are dug I can raise a crop of turnips or cabbage, or sow to wheat or to grass, which cannot be done after a late-growing potato.

I believe my actual trial that small potatoes are the most profitable to plant, simply because they have no market value. I formerly planted large potatoes, cut to two or three eyes, on the supposition that but two or three sprouts were enough in a place (which is true), and that the young plant, needs assistance. I find that where we plant the potato whole but few eyes sprout, and that the whole potato, in decaying, gives its substance to those few sprouts. Last season, by actual measurement, I had more potatoes to the row where I planted small potatoes than where I planted large ones cut, besides saving \$1 per bushel on the seed and the labor of cutting. Some writers have persistently advocated cutting potatoes several weeks before you wish to plant. By following such advice in 1872, I lost two-thirds of a crop by the seed rotting in the ground, whereas that cut on the same day came up.

I advocate cutting potatoes is generally adopted, simply because, in order to keep the weeds down after cultivation ceases any crop ought to entirely shade the ground. This the Early Rose will not do at a greater distance than I have named. At this distance I have obtained more potatoes in the same length of row than at 2 1/2 or 3 feet, besides saving the ground from weeds, which two advantages materially depend upon each other. I give reasons for the faith that is in me, which all writers ought to do. No man has the moral right to give as facts what he imagines from theory.—James T. Van Wyck, in N. Y. Tribune.

How to Cure Split Hoofs.

I had a horse that had both hoofs split from top to bottom. He could not walk without his feet spreading apart. I kept him for three months on straw one foot deep in the stable, but did not do good. At last I went to the blacksmith shop and had heavy shoes made which spread wide at the heels. To these heavy shoes there were nailed at the outer edge of each heel, a piece made of shoe nail iron. These pieces were made to fit around the foot, about an inch below the hair. I let the pieces come together within half an inch each, and turned up about three-fourths of an inch. In the turned-up part a hole was made to receive a bolt an inch long, with a square head and screw and nut on the other end. On nailing the shoes on and putting the bolt in and screwing on the nut, the foot was brought together. In this way, I was enabled to work him every day if I wished. Previous to this my horse had not walked one mile in three months. Next day after that the shoes put on I drove him in a carriage twenty miles, and I have used him right along.—(Cor. Cincinnati Gazette.)

A writer recommends the following practice in feeding chickens: "For the first week after hatching, hard-boiled eggs, chopped fine, at least twice a day, wheat steeped in milk and coarse Indian-meal, bread crumbs, &c. A change of food is necessary twice a week, substituting cracked corn for wheat."

VICINITY.

—Hawley wants to be incorporated.

—Those Troy waiters were discharged on Wednesday.

—Arousing temperance meeting was held at upper Red Hook on Monday evening.

—Upper Red Hook is like Rondout. It has a James R. Korley.

—Sullivan county is just getting into the habit of pressing hay.

—A Jeffersonville butcher has \$3,000 pound ox.

—A Fosterdale man has trained a calf to perform a round dance.

—Lumberland must be a very benighted place. It has four knights for town officers.

—Onocenta has a queer way of mixing its statistics. It had last year nearly twice as many marriages as it had births and deaths put together.

—Delhi is ahead of this city. She has had water-works for some time and now has a Board of Trade.

—Monticello had a big blow one day last week. The wind traveled 100 miles per hour.

—The Reformed Church of Catskill has called Rev. Mr. Thompson of Peekskill, and he will probably accept.

—Poughkeepsie won't have any public parade and inspection of its firemen this year.

—Up to last Saturday the Del. & Hud. Canal Co. had 457,000 tons of coal at Honedale awaiting the opening of the canal.

—That ice-bolt Cyclone has had too much credit. A correspondent of the Rhinebeck Gazette has triangulated the course and says it falls short of a mile.

A Source of Great Anxiety.

My daughter has received great benefit from the use of VEGETINE. Her declining health was a source of great anxiety to all her friends. A few bottles of VEGETINE, however, restored her strength and appetite.

A. H. TILDEN,  
Insurance and Real Estate Agent,  
100 N. 4th Street,  
Boston, Mass., June 5, 1872.

MOTHERS, READ THIS!

A GREAT BLESSING!!  
Worth a Dollar a Drop.

Mothers, are your little ones fretful? And is your patience almost exhausted in vain efforts to soothe them? Can you sympathize with you, and can you tell what will make your little child, give you a good appetite, and procure for it hours of sweet, sound sleep?

My little girl is two and a half years old, and does not sleep a wink. She has been sick a number of times, and is now recovering from a severe cold. I have tried every remedy, but nothing has done her any good. I have heard of VEGETINE, and I was nearly driven to despair. I have now tried it, and I am nearly driven to despair.

I have heard of VEGETINE, and I was nearly driven to despair. I have now tried it, and I am nearly driven to despair.

I have heard of VEGETINE, and I was nearly driven to despair. I have now tried it, and I am nearly driven to despair.

I have heard of VEGETINE, and I was nearly driven to despair. I have now tried it, and I am nearly driven to despair.

I have heard of VEGETINE, and I was nearly driven to despair. I have now tried it, and I am nearly driven to despair.

I have heard of VEGETINE, and I was nearly driven to despair. I have now tried it, and I am nearly driven to despair.

I have heard of VEGETINE, and I was nearly driven to despair. I have now tried it, and I am nearly driven to despair.

I have heard of VEGETINE, and I was nearly driven to despair. I have now tried it, and I am nearly driven to despair.

in the city. Everything in the meat line, Fresh and corned.

LOUIS MIELLETT.

Wm. M. Tweed's bad luck, whose streak for a few years past has been as broad as his good luck was years ago, still continues. The effort of his lawyers has failed, Judge Brady having confirmed his sentence to the penitentiary. He cannot therefore take luxurious apartments in Ludlow street jail, and hold matinees of his friends and followers. This deprives the latter of a great deal of pleasure undoubtedly, but after all it is better that Mr. Tweed should still continue to distribute pills on Blackwell's Island. He does that well, and whoever does well that his hands find to do, in a measure fills his mission. The Island really cannot get along without the Boss.

How much of its wealth comes from the very poor the world will never know. It quite often takes the choicest gains they have, sets them in its coronet, and they flash on through the ages without a thought being bestowed upon the givers, and sometimes even their very names are unknown. Many a Christian has felt thankful that it ever occurred to any one to write "Sweet Hour of Prayer," and yet perhaps has never heard nor even inquired who wrote it. It is interesting to know that it was composed by Fanny Crosby, who, poor woman, is blind, and has also a blind husband who is more helpless than she is. They are very poor, very poor, having no property, and besides are in debt, the unpaid aggregate of rent and board amounting to a thousand dollars. It would be a very graceful act if the many who have sung or heard her sweet hymns, for she has written many, should send her a contribution. Rev. C. C. Goss, 97 Varick street, New York, will take charge of them.

It sounds very queer, but an Englishman makes a novel assertion in regard to this country. In his view it isn't nearly as fast as England, nor as reckless. His statement is brought out by the publication of the fact that one hundred and forty trains start daily from the Union Depot in New York. The Englishman laughs at that, for Clapham Station, in London, sends out 955 daily, and not content with this he places another laurel from our brow by proudly claiming English railways kill more people than American. The reason is calculated to take some of the self-conceit out of us, for we are not as much killed here as there, because we are not so fast. Now we become so accustomed to calling this a fast nation and everything Yankee of fast order, that we have grown a little proud over it. But it seems to be the truth that they run their railroad trains ten or fifteen miles faster per hour than we do; but it is a comfort to know they can't run them farther than across one of our states.

As we look at an old newspaper sent us the other day, published at Boston in the year 1778, we find it almost difficult to comprehend the great anxiety and necessity for further shortening the distance between this continent and Europe. The Journal boasts very loudly because it is able to give European news only six months old. We have improved on that matter so we flash it across literally in less than no time, if we make no allowance for the difference between Greenwich and Washington. But it still takes nine days, and sometimes more, to carry mail, goods and people across the ocean. This time it is now proposed to diminish one-third. The Graphic, which failed to get its balloons across at all, now seeks another way, and proposes a line of railroad across New Foundland. If steamers would stop at Heart's Content the ocean passage would be reduced one-third, and we could cross the deep in less than six days. It would be a week's excursion, and as the dangers would be correspondingly diminished it would partake even more of the character of a pleasure excursion than it does now. We have not arrived at the balloon age yet, but from the old packet days to the fast steamer and swift rail cars is a step that would take Rip Van Winkle a score of years to comprehend.

Where are the Aims Commissioners? It will be seen by the report of the Common Council proceedings that a very sensible and timely resolution was introduced by Alderman Bayne, and passed with a practical unanimity. It inclined there are forty unlicensed places in the city where liquor is sold, besides the enormous number of 178 for which the Excise Commissioners have received their \$30. Mr. Bayne's resolution calls upon the Aims Commissioners to prosecute these places. The law makes it their duty to do this, and every dollar they can collect in this way is just so much contribution toward the poor expenses of the city, and penalties collected go into the treasury for the poor. It is an explanation from the Aims Commissioners now in order. Messrs. Commissioners, why haven't you collected this money?

Wrong Premises. Archbishop Purcell's position on the temperance question has excited considerable surprise. The Catholic Church is usually a unit in its treatment of any subject, and it is therefore doubly astonishing that he should pronounce against total abstinence. The Catholic bishops and priests have, in the past, been so energetically within the past few years especially, that an immense deal of good has been done. We have no statistics at hand regarding the inroads the church has made upon the ranks of intemperance, but we think it quite safe to say that converts among the hundreds of thousands, if not millions, during the past few years. The campaign, short as it has been, has added great honor to the church, and it is the more surprising that a prelate so exalted as Archbishop Purcell should fail to do this.

His position regarding drinking is quite untenable. Experience abundantly shows there is no real security in total abstinence. The habit of drinking finds its greatest incentive in the social feature. Young men seldom drink alone, and if they congregate to drink wine or larger the descent into the lower and more dangerous grades is very easy. As the appetite becomes stronger it needs something of greater strength than water in its turn increases the appetite until it also is increased to satisfy. No man will ever be a drunkard who never takes the first glass. That is the only axiom in the language that brings us to the same conclusion. As the community will never reach the ultimate of economic working until it can be said of it that no man in it gets drunk, it is a melancholy perversion of talent for any leader of the people to tell them there is safety in anything else in a temperance way than strictly total abstinence.

A Little too Quick Rapid Transit. Mr. Lincoln must have been exceedingly amazed when Mr. Eastman arose in the House and gravely took him to task for not reporting his rapid transit bill, which had been waiting six weeks, while Vanderbilt's got out of committee in a week, and the Third Avenue bill made the heat in just twenty-four hours. Committees, especially Chairmen, become so accustomed to the usual order of things, and preference is so often given to bills without regard to merit, that Mr. Lincoln may easily be pardoned some surprise at being questioned on such a topic. But Mr. Eastman managed to conceal his knowledge of such matters very effectively, and was as innocent as a lamb of the inner workings of legislative bodies. He accomplished one object at least, clearly establishing that he himself was not responsible for the delay in reporting his own bill; but Mr. Eastman really asks too much when he ex-

pects us to believe that he asked Mr. Lincoln all those questions simply to obtain knowledge. The fact is, Mr. Vanderbilt amounts to considerable more in the average legislator's eyes than several hundred merchants or other business men. In one sense there is some reason in paying more attention to him than the ordinary applicants, as his immense capital gives more assurance that work will be done under his bill than if the chapter were given to some obscure and such enterpriser. But besides this there is a magic about the name of Vanderbilt when it is pronounced in legislative precincts that transfixes committees and legislators in the most charming way. Mr. Eastman must be very, very unsophisticated if he expects sixty columns of newspaper commendation and four hundred letters from influential men to outweigh the Commodore or the Third Avenue Company. Mobilized capital is the ruling power.

CURRENT TOPICS.

Stanley says Livingstone is dead. That settles it. And now what is there for Stanley to live for?

The Brooklyn Argus thinks that "depending upon the President for reform is like sending infants to Herod for dry nursing."

The Duchess of Edinburgh's handkerchiefs cost \$5,000 apiece. And yet she has to use them the same as other people.

A few more Chicago and Cleveland insults to the praying women will make public sentiment a unit on their side.

There don't seem to be so much talk about early adjournment up at Albany as there was.

The President is said to be opposed to permanent infighting. He probably prefers an occasional howling.

Walseley conquered King Koffie in Africa; and now why don't the women get him to come over and try his hand on King Whiskey here?

The Herald's imagination is in full play over that North Carolina volcano—invidious play, indeed, than the volcano is. The Herald's inner consciousness spreads over more ground than the British dominion.

Somebody has stolen Adirondack Murray's manuscript letter, "Civilized Heavens." They probably made a mistake and took it instead of Murray himself. They're about the same thing, anyway.

The Bald Mountain people think the rumbling in the earth portends the end of the world, and hundreds have repented of their sins. Now if Butler and—well, a few more—could be made to repent of theirs. But it's asking too much of the mountain.

This is what Nellie Grant is going to marry. Poor girl! George Charles William Frederick Algernon Sarratoris, and he splits his hair and his last name in the middle, thus—Sarratoris. And this is what we train up Presidents' daughters for!

This is what Nellie Grant is going to marry. Poor girl! George Charles William Frederick Algernon Sarratoris, and he splits his hair and his last name in the middle, thus—Sarratoris. And this is what we train up Presidents' daughters for!

The Bald Mountain people think the rumbling in the earth portends the end of the world, and hundreds have repented of their sins. Now if Butler and—well, a few more—could be made to repent of theirs. But it's asking too much of the mountain.

This is what Nellie Grant is going to marry. Poor girl! George Charles William Frederick Algernon Sarratoris, and he splits his hair and his last name in the middle, thus—Sarratoris. And this is what we train up Presidents' daughters for!

The Bald Mountain people think the rumbling in the earth portends the end of the world, and hundreds have repented of their sins. Now if Butler and—well, a few more—could be made to repent of theirs. But it's asking too much of the mountain.

TELEGRAPH.

REGULAR DISPATCHES TO DAILY FREEMAN.

FOREIGN.

AUSTRIA.

The New Minister to Washington. VIENNA, March 22.—The appointment of Baron Schwartz-Pemberton to be Austrian Minister to Washington is gazetted.

MEXICO.

More Fanatic Outrage. CITY OF MEXICO, March 15, via HAVANA, March 22.—A Catholic mob on the night of March 7th attacked the Protestant chapel in Puebla, smashed the windows and furniture, destroyed the Bibles and stoned the pastor, Rev. Antonio Corral.

GERMANY.

The Emperor's Birthday. BERLIN, March 22.—The generals of the army at present in this city waited in a body on Emperor William to-day and congratulated him on reaching his seventy-seventh birthday. The Emperor in the course of his reply referred to the crisis which was hanging over the army and declared that he was determined to maintain its strength and thereby insure the peace of Europe.

SPAIN.

A National Bank Established. MADRID, March 22.—A decree has been promulgated establishing the National Bank, granting it a monopoly of the issue of banknotes and compulsorily incorporating with it all other banks in the country. In return the new bank agrees to advance to the government 125,000,000 pesetas.

THE NATIONAL CAPITAL.

A Compromise Finance Bill. WASHINGTON, March 22.—The Senate Committee on Finance held a special meeting yesterday, at which a compromise financial measure was agreed upon, to be reported to the Senate on Monday. In its main features the bill will fix the amount of greenback circulation at \$382,000,000, thus legalizing the re-issue of that portion of the \$440,000,000 legal tender reserve which is outstanding and making it a part of the permanent circulation. The bill will also authorize free banking on the national banking system, but will contain a requirement that legal tender notes shall be retired from circulation proportionately as new national bank notes are issued. This latter provision is regarded as a measure of contraction, but the preceding authorization for keeping in circulation the \$26,000,000 of legal tenders that have been reissued from the reserve is considered a substantial victory for the advocates of an increased volume of currency, who, it is understood, will claim in the Senate that the principle having been thus admitted as regards a portion of the \$440,000,000 reserve the whole of said reserve should be accordingly placed in circulation.

THE FREEDMEN'S SAVINGS BANK.

Frederick Douglas has been elected President of the Freedmen's Savings Bank here, which has branches in nearly all the southern states. Dr. C. B. Purvis, another colored man, was chosen Vice President. Forty out of seventy clerks employed are all likewise colored. The new Board of Management appeared before the House Committee on Banking and Currency yesterday and said it was their desire to make the bank an institution exclusively for colored people and one which they would regard as their own.

THE TEMPERANCE CRUSADE.

The Situation in Cleveland. CLEVELAND, March 22.—The Mayor's proclamation has been the topic of general conversation to-day. The friends of the temperance movement and the opposing element each place constructions on its meaning favorable to themselves. No saloons were visited to-day. Services were held in several churches by the ladies, who expressed the wish and determination to go on with the work. Under the provisions of the proclamation the ladies will be unable to hold services on the sidewalk and on the strength of this many saloon keepers have determined to close their doors upon them.

In most of the churches in this city to-day the ministers preached upon the subject of temperance and almost unanimously favored the continuance of the crusade against the saloons. The congregations were unusually large. The intails to the ladies have accused many meetings and a large number of gentlemen met last night to counsel as to the best means of supporting them. Legal opinions have been given that the Mayor's proclamation will not interfere with the ladies except as to street praying and singing where refused admittance to saloons.

A meeting of Germans held last evening was addressed by Hon. Frederick Hecker; subject—"Fanaticism the mainspring of the temperance movement." The speaker said it grew out of hatred to all that was foreign. The clergy, he declared, were too cowardly to take an active part in what they knew to be unlawful proceedings and fell back on the women, expecting their sex would protect them. To-morrow morning temperance mass meetings will be held at different churches throughout the city, and in the afternoon the ladies will renew their visits to the saloons.

MEETING IN JERSEY CITY.

New York, March 22.—A temperance meeting was held in the theatre in Jersey City to-night, which was crowded to excess. Many ladies were present. Speeches were made by clergymen, ladies and others. The feeling was strongly in favor of the Ohio movement, but no definite course of action was decided upon.

THE CRUSADE IN NEW YORK.

The temperance crusade was marked to-day by meetings in many of the churches throughout the city. At the Church of the Strangers there was a large attendance and much enthusiasm was evinced. An address was delivered by A. T. McMullen, Mrs. Lawrence, Mrs. Smith and others. At the Seventh Street M. E. Church a temperance prayer meeting was held under the auspices of the pastor, Rev. Wm. H. Boote, and at the Fourth Street M. E. Church another meeting was conducted by Rev. J. W. Barnhart.

METROPOLITAN NEWS.

The Railroad Strikers. New York, March 22.—Representatives of the Erie, Pennsylvania Central and New York Central roads yesterday agreed to concede nothing to striking freight men. They will pay no more than 17 cents per hour for ten or more hours' daily labor. New men are to be put on to-morrow in place of all who don't report for duty. The strikers say they do not intend to have recourse to violence and that they made use of force toward the Italians whom they dispersed yesterday morning. An immense quantity of freight has accumulated, chiefly at Long Dock, N. J.

The freight handlers in the employ at Long Dock by the Erie Railway have refused to accept the terms offered by the company and the latter have made arrangements to put about five hundred new men at work to-morrow morning. The men will be taken over the river in barges and will be supplied inside the yards with their noon meal, so as to avoid the necessity of going upon the streets, where they would probably be submitted to the assaults of the strikers. The company has called upon the Mayor and Chief of Police of Jersey City and Sheriff Reinhardt for a force necessary to protect the new men and a platoon of from fifty to seventy-five men will be detailed to the yards in the morning. It is said there are \$5,000,000 worth of freight now awaiting transportation at Long Dock. The company also suffers heavy loss from inability to receive freight.

THE LATEST SERIAL.

The Sunday Mirror says Arthur Bell, head book-keeper of R. H. MacDonald & Co., patent medicine dealers of this city, has defrauded his employers of nearly \$30,000 by figuring figures in the books and obtaining checks for stamps and merchandise on which

he changed the word "order" to "bearer." He is said to have invested much of the money in the purchase of a house and lot and also a well-stocked grocery. He has been arrested, confessed and given up property valued at some \$14,000; also, four savings bank deposit books, representing deposits aggregating \$2,000. A relative is said to have obtained part of the stolen money, and used it in payment of his debts. The defalcation was brought out by the discovery that another employee had robbed the firm of between \$600 and \$1,000.

LIBERAL DONATIONS.

The will of the late John Clark of New Brunswick, New Jersey, gives \$10,000 to the American Bible Society, \$20,000 to the Board of Domestic Missions of the Reformed Protestant Dutch Church, and \$10,000 to the widows and disabled ministers of the Reformed Protestant Dutch Church.

SWEEPING CHANGES ON THE ERIE.

A large number of conductors have been discharged by the Erie Company. The reason is not stated, but it is believed all or about all of the old employees are to go.

THE GYMNASIUM FURNAL.

The funeral of James Sylvester, the gymnast killed at the 34th Street Theatre on Thursday night last, took place from "the little church around the corner," the Church of the Transfiguration, to-day. The remains were interred at Evergreen Cemetery, East New York, and were attended to the grave by a large number of professionals and theatrical actors.

THE WEATHER.

To-day's Probabilities. For the Middle States rising barometer, increasing cloudiness, northwesterly winds, temperature falling below freezing, with occasional snow and rain on the extreme northern portion.

COMMERCIAL REPORTS.

**Dr. J. Walker's California Vinegar Bitters** are a purely vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative, well as a Tonic, relieving Congestion, Inflammation of the Liver and Visceral Organs in Bilious Diseases.

The properties of Dr. WALKER'S VINEGAR BITTERS are Astringent, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Gratifying Thousands proclaim VINEGAR BITTERS the most wonderful invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their livers are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fortified.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Cough, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In all of these constitutional diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Painting and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurf, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuge, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or married or single, at the dawn of manhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood when you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

**FOR SALE OR EXCHANGE,**

**Dr. J. Walker's California Vinegar Bitters** are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative, well as a Tonic, relieving Congestion, Inflammation of the Liver and Visceral Organs in Bilious Diseases.

The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritive, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful, invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bowels are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great river throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Congestion of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Serofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Gleet, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Scars, etc. In these, as in all other constitutional diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiating Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetters, Salt Rheum, Itch, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Scars, Erysipelas, Itch, Scars, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuge, no anthelmintics will free the system from worms like these Bitters.

Cleanse the Vitiating Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
